

Listing of the Claims

This listing of the claims replaces all prior versions and listings of claims in the application.

Claims 1 - 2 (Canceled)

Claim 3. (Currently Amended) A method for controlling general household pests selected from the group consisting of German cockroaches, house flies, red imported fire ants and bed bugs comprising applying an insecticidally effective amount of a formulation ~~of claim 1~~ comprising a mixture of i) bifenthrin and ii) acetamiprid; and iii) an aqueous medium to a locus where general household pest control is needed or expected to be needed.

Claims 4 - 6 (Canceled)

Claim 7. (Previously Presented) The method according to claim 3, wherein said locus is selected from a general household pest-infected structure, a structure that is expected to be general household pest-infected, or a location adjacent to said structures.

Claim 8. (Currently Amended) The method according to claim ~~[[4]]~~ 13, wherein said locus is selected from a general household pest-infected structure, a structure that is expected to be general household pest-infected, or a location adjacent to said structures.

Claims 9 - 12 (Canceled)

Claim 13 (New) The method of claim 3 wherein the amount of the bifenthrin is equal to from 0.001% by weight to 0.12% by weight of the formulation and the amount of the acetamiprid is equal to from 0.001% by weight to 0.20% by weight of the formulation.

Claim 14 (New) The method of claim 3 wherein the amount of the bifenthrin is equal to from 0.001% by weight to 0.06% by weight of the formulation and the amount of the acetamiprid is equal to from 0.005% by weight to 0.10% by weight of the formulation, and the general household pests are German cockroaches.

Claim 15 (New) The method of claim 3 wherein the amount of the bifenthrin is equal to from 0.0575% by weight to 0.0625% by weight of the formulation and the amount of the acetamiprid is equal to from 0.025% by weight to 0.05% by weight of the formulation, and the general household pests are red imported fire ants.

Claim 16 (New) The method of claim 3 wherein the amount of the bifenthrin is equal to from 0.001% by weight to 0.005% by weight of the formulation and the amount of the acetamiprid is equal to from 0.01% by weight to 0.02% by weight of the formulation, and the general household pests are house flies.

Claim 17 (New) The method of claim 3 wherein the amount of the bifenthrin is equal to from 0.0575% by weight to 0.0625% by weight of the formulation and the amount of the acetamiprid is equal to from 0.025% by weight to 0.05% by weight of the formulation, and the general household pests are bed bugs.
